R. J. Cowell Dies Suddenly

The death occurred on Wednesday morning of Robert J. Cowell, in his 62nd year. Deceased had been around in apparently his usual health and had been assisting in the garden on Monday when he was taken ill very suddenly, passing away on Wednesday from heart failure.

Deceased was born in Edmonton, England on January 2nd, 1870. In 1896 he married Miss Amelia Stevenson residing at Whatcheer, Iowa, later moving to Lethbridge. The last five years have been spent in Champion. While of a decidedly quiet disposition he still made many friends, all of whom he related. His removal will be the cause of widespread and lasting regret.

He is survived by his widow and four children, Kathryn at home, Mrs. Alvin Lyon Barons, Mrs. Hugh McIlvrena Lethbridge, and Mrs. Homer Grosswald, Lethbridge, and three grand children.

Funeral services were held Thursday at Lethbridge under the direction of Martins Funeral Parlor.

The sympathy of the community goes out to the bereaved family.

Local & General

Mr. and Mrs. H. Gill motored to Lethbridge Sunday.

J. Brown was a Calgary visitor during the week.

Mrs. Clarence Davis' mother who has been ill is slowly progressing favorably.

Mr. and Mrs. James Ellis leave Champion Saturday, enroute for Glasgow Scotland.

Mrs. Lucia and Miss Doris attended the banquet given by the junior C. G. I. T. girls in the hall May 6.

Mr. and Mrs. H. Lamont entertained at dinner on Friday, complimentary to Mr. and Mrs. A. M. Watt.

The C. W. L. will hold a Bake Sale and Tea at the home of Mrs. D. D. Farmer on Saturday, May 21st, commencing at 3:00 o'clock. There will also be a draw for the doll.

The tea, supper and bake sale held on Saturday by the wives and members of the church board, in Campbell's hall, was fairly well attended.

Mr. and Mrs. Nelson and Mr. and Mrs. Volsey were Vulcan visitors Sunday.

Tennis promises to be extremely popular here this season, to judge by the appearance of the courts any fine night.

Miss L. Clarkson was a visitor at the home of Mr. and Mrs. John Wolfe, Vulcan, over the week end.

Women's Institute

There was a good attendance of members and guests at the May meeting of the Champion Women's Institute, held at the home of Mrs. A. W. Jopling on Tuesday afternoon. Following the routine business, the programme opened with a community singing contest, the result of which was to draw, Mrs. Chamberlin making the lucky choice. Other entertaining features were a resume of current events by Mrs. D. Smith, vocal solo by Mrs. Chamberlin, piano solo by Aileen Collins. Mrs. A. T. Martin, Vulcan, gave an interesting discourse, taking as her theme the importance of well chosen hobbies as a means of keeping good health and incidentally procuring wealth. Happiness naturally follows Mrs. Martin's hobby of canning, and she recently won a contest prize for her description of her "All Year Canning Program." Pantry shelves need never go bare as long as there is anything eatable to store away, and Mrs. Martin advised all to grow extra supply of vegetables this year for family consumption. Fortunately her husband's hobby is growing vegetables.

Mr. Baker spoke on the New School Act, touching on the qualifications of electors and trustees, religious instruction provided for in schools, teachers contracts, minimum salary and fees for non resident pupils. Tea was provided very acceptably by the hostess and Mrs. Williamson, who were assisted in serving by the Misses Ada Williamson, Aileen Collins and Ruth Jopling. One new member joined.

Mr. and Mrs. A. M. Watt and family left Monday evening for Brant where Mr. Watt will take over the management of the Canadian Bank of Commerce.

Mr. Watt has been the assistant manager of the Canadian Bank of Commerce for the past 3 years, and during that time has made many friends. His transfer to Brant, while in the line of promotion, removes a well known figure from town to the regret of many associates. Mrs. Watt has been very active in social circles and will be sadly missed. All will join in extending their very best wishes to Mr. and Mrs. Watt in their new home.

That Champion was refused entry to the baseball league seems quite unfortunate, as this year prospects for a strong aggregation seemed to be bright. Three old timers of ball fame were included in this year's line up, viz: Charlie Starr, B. Siler and F. Bouzyan, and other material in sight was both plentiful and good, indicating that Champion would have the best team for some years. It is to be regretted that their entrance to the ball league was not sanctioned.

Work on the tennis courts was resumed when the entrances were enclosed with wire and gates attached. After this the holes in the wire patched up and then the laborers settled down to an endurance match. Messrs P. Dawson and D. Campbell finally won from Messrs J. D. Henderson and J. H. Bastin, the score finishing at 14 to 12 sets.

Mr. and Mrs. A. McCullough spent a few days in Calgary this week.

NOTES AND COMMENT

Depressions End

"Have I told you what caused this and all other depressions? Then I'm telling you now and I promise that when you have finished, if you believe it, the depression will be over for you."

"All values, in the final analysis, are measured in terms of human happiness. And our total trouble is that we have, in America, given money a bloated value as a bringer of happiness."

"We see men hoarding dollars rather than buying the things that would make them happy. Happily I learned that the things that bring us most happiness require no money. I have discovered there is greater joy in walking by a brook than listening to music and Andy, more happiness reading a book than the market reports; more contentment at home with my family—than nights spent at the club or the speakeasy, or at a picture show or a home-brew party; more serenity gained at church than at the golf club; more blessing in giving to someone than getting from them."

"I am convinced further that we need to get closer to the earth; there is more happiness in a cabin than in a castle. I believe that our children are being educated too much to make money and too little to make happiness; learning more about being saints than being humbles; musing how to get rather than how to give."

"Let's reevaluate our assets, giving proper credit to health, family, friends, nature, books, art, love and service."

For a time after the suggestion was made that help in the collection of local news would be of great assistance in getting out an interesting paper, quite a number handed in items of news. A few still continue, but more assistance in this direction would not only be appreciated in the newspaper office, but would naturally benefit readers. "When you have a news item in your possession get it to the newspaper somehow."

The tree planting car started its annual tour of the prairies a few days ago. It will spend the first two months in Saskatchewan, later traveling to Alberta. This has proved quite interesting in the past and it is hoped Champion will be included in its itinerary.

Every indication points to a serious crop ravage by cutworms this year, according to Dr. H. L. Seaman, Dominion government entomologist.

Pale western cutworms which caused a heavy crop loss last year in South-eastern Alberta, are now hatching quite unharmed by the storms, he stated.

Cold weather and storm have only delayed hatching and the cutworms will now develop more evenly and infestation of infected fields will be more concentrated, he claimed.

Dr. Seaman said that besides the peril from pale western cutworms, there is another menace in the increase of two other species, the army cutworm and the early cutworm. Infestation of six cutworms per square yard is sufficient to completely destroy a field in a dry season, he estimates. If the season should turn out wet an infestation much greater will cause little or no loss.

These are the days when we hear the famous old expression "Million Dollar Rain." At present, wheat prices the valuation should be changed to Thousand instead of Million.

"Women lose their temper most when they are hungry," according to some wise old owl who is peddling his knowledge of human frailties. Whereas women differ so much from the lords of creation. The average man, when hungry, is just as amiable and gentle as a bear with a sore head.

Some Of The Advantages As Well As Disadvantages In Growing Of Reward Wheat

(By H. G. L. Strange)

As the wheat fields in Western Canada began to extend northward the need was felt for a wheat variety that would mature earlier than Marquis, so as to avoid damage from early fall frosts. Several new varieties had been produced by plant breeders to fill this purpose, notably the Red Bobs selections, originated by Dr. Seager Wheeler, Supreme, Early Triumph and Red Bobs 222, the latter having been re-selected by the University of Alberta, also the varieties Garnet and Reward produced by the Dominion Experimental Farms, Ottawa.

Because of its high yield grain wheat quickly became popular and in the last few years has increased in area and bounds in Northern Alberta and Northern Saskatchewan. Some concern, however, has been felt that because the milling qualities of Garnet are somewhat different to those of Marquis, and because Garnet flour has a slightly yellowish tinge, that the quality and reputation of Canadian wheat on the world's markets might be harmed if too large an amount of Garnet should be grown.

Because of this concern some have recommended that some of the other earlier varieties might be better. Reward wheat is one that is widely recommended.

Reward was originated at the Dominion Experimental Farm, Ottawa, and is the result of a cross between Marquis and Prelude made by Dr. Charles Saunders in 1912. Under the direction of Mr. L. H. Newman, the present Dominion Cerealist, the variety was tested for several years by several hundred co-operators in different parts of the west. Finally the variety was released by the Minister of Agriculture for further trials by farmers in 1928.

Reward wheat has this year been accepted for registration by the Canadian Seed Growers' Association, which means that the scientific plant breeders of Canadian institutions consider the variety to be of high economic value and is well-suited for use in Western Canada. There can, therefore, be no need for hesitation in the use of this variety by any farmer who finds that their districts and farms are suited to Reward wheat. The Dominion Cerealist has now standardized the variety and Registered Seed of Reward, true to variety and sealed in the sack, will undoubtedly be available to farmers in the near future.

The official description of Reward wheat is as follows: Time of maturity 5 to 6 days earlier than Marquis; height of plant 3 to 4 inches shorter than Marquis on the average—strength of stem a little stronger than Marquis—awn absent except for a few short awns, usually irregular in length, glume covering, slightly to heavily pubescent (or hairy), awn sheath on season and early, plain color red, usually darker than Marquis, grain texture hard, rarely plump or starchy.

The head of Reward is generally shorter and more lax than Marquis, while the spikelets are usually more or less irregularly arranged, giving the head a characteristic ragged or spiral appearance. As previously stated the glumes are pubescent or covered with short hairs which can usually easily be seen with the naked eye, magnifying glass. This is one of the ways with a magnifying glass. This is one of the characters that help in identifying the variety.

The milling and baking values of Reward wheat are excellent. It gives a high yield of flour. It bakes into bread, giving a large well piled loaf of excellent color and texture. The berry is uniformly plump, of a clear red color, seldom being yielded or starchy. This is the reason this variety will often bring No. 1 Hard and No. 1 Northern in the Northern districts where Marquis and some other

sorts seldom obtain better than a No. 3 grade.

The straw is shorter and stiffer than in other Marquis or Garnet, and in wet years Reward will often stand up when some other varieties, particularly Garnet, go down. The chaff is light on the kernels which enables it to stand a considerable amount of moisture in the field without sprouting in the stock, such as often happens with other sorts, particularly with Garnet.

It is from 5 to 8 days earlier than Marquis, or about as early as Garnet wheat in most places, although in other places it is 2 or 3 days later than Garnet, but it is always earlier than Marquis.

Weights very high to the bushel. Usually two or three pounds more than Marquis, Garnet or other sorts. Weights of 60 and 65 pounds to the bushel are quite common with Reward wheat. Reward is probably the best of all varieties of Hard Red Spring Wheat for Exhibition purposes. Its high weight per bushel, bright, plump and pleasing berry of good lustre usually make it a high place in competition with other varieties.

Reward wheat is not a real resistant wheat, but because of its earliness in most years often suffers less damage from rust than many of the other varieties. Investigations show that Reward wheat does not shatter much as some of the other varieties, particularly Garnet.

On rolling land wheat on the high ridges yields ripens before that in the low spots. Reward will ripen in these places uncut after ripening for a considerable time without the berry shattering or discoloring. Weighing and testing of Reward wheat, therefore the sample should be of an even color and plumpness even from such rolling land. Its stiff straw, early maturity, non-shattering head and ability to stand after ripening without much loss of plumpness, weight color, makes Reward wheat an excellent variety to use for Combine Harvesting.

The most defect of Reward wheat at the present moment seems to be that on the whole the yield is lower than Marquis or Garnet, but in some districts farmers state the yield of Reward is higher than Marquis or Garnet, and in many districts where most farmers report lower yields of Reward there are often one or two farmers who report higher yields. In most cases those who report high yields of Reward have seed from a peck to half a bushel more than is usual with Marquis or Garnet. Every case investigated where the farmer sowed two bushels of Reward to the acre reported as giving a satisfactory yield.

An Old Advertisement

Egyptian In Third Century Wise In Business Matters

A cleverly written advertising sign, the idea of an enterprising business man in Egypt in the third century B.C., has been discovered by Dr. Helmut of Drops College. The advertisement, written on a small scroll, has been deciphered as follows:

"Dreams I explain, holding the commandments of the Gods. Good fortune! A Crete will interpret them." This old advertisement was found by Dr. Helmut as he examined a number of inscriptions from the Temple of Serapis, near Memphis. The Dream Interpreter's sign had been strategically set up before the Avenue of Sphinxes, which led to the temple. About this avenue passed Egyptians who came from near and far to spend a few days on the temple grounds. They came in order to sleep there and have their dreams interpreted by the priests, who were the official and paid dream interpreters. The sign of Crete was therefore daringly edging himself into the dream business against formidable competition of the priests.—Toronto Telegram.

No less than one out of every ten gallons of gasoline is wasted through leakage of motorists to replace worn out spark plugs, according to tests conducted by the University of Pittsburgh.

"I met your husband yesterday, but he didn't see me."
"I know. He told me."

Economic improvement in French Indo-China shows increasing momentum.

Havana, Cuba, has a population of over 600,000.

304
A LIKABLE LITTLE MORNING PROCK, FRESH LOOKING AND COOL

Don't you love it? It is a dress you can do when you are "doing things" and feel just right in it. It has no fussy bits and ends to get in the way of your gardening, making the dress attractive, etc.

One's mind naturally runs to thoughts of dimly printed, baliste prints, etc. for such a dress. But there are other materials such as dotted pique, striped or plain linen, cotton mesh, tub silk, etc., which could enter the running, too. For this model, a blue and white dimity print with blue bias bands was chosen.

Style No. 304 is designed for sizes 36, 38, 40, 42, 44 and 46 inches bust. Size 38 requires 2 1/2 yards of 38-inch material with 7 1/2 yards of binding. Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

How To Order Patterns

Electrically heated uniforms and shoes for traffic policemen have been demonstrated.

A new process makes the basic color of Portland cement tan instead of gray.

Just An Old English Custom

A. H. Garner may be truly said to carry his responsibilities lightly as he observes an old English custom and carries his bride, the former Miss Marjorie Pretwell, through the door of St. Cuthbert's Church, Yorkshire, after the ceremony.

Recent Discovery Interests Astronomers

May Be Astronomer Neuter To Earth Than Any Yet Found
Astronomers at Mount Wilson Observatory and others in this country and Europe are keeping a close watch on "Deimos," an asteroid or comet discovered recently by an astronomer at the University of Brussels.

"Our observations of it have disclosed no tail and seemingly only reflected light," said Dr. Frederick H. Sears, indicating that it is an asteroid and one much closer to the earth than any yet found.

He is assistant director of the local observatory, a branch of the Carnegie Institution of Washington.

Discovery of an asteroid nearer the earth by "shooting" at a given point enables us to obtain a more accurate value of the distance from the earth to the sun, upon which the measurement of distances to all heavenly bodies is based.

"We are much in the position of a surveyor computing the width of a river by shooting" at a given point across the stream from two different points on his side of it, and determining the angles of the imaginary line. The narrower the stream the more accurate his measurement will be.

Our computation of 93,000,000 miles as the distance of the sun from the earth is based on the estimate of their average size as the distance from the earth to Eros, the nearest asteroid yet found."

Prices May Be Better

Possibility Of Advance In Wheat Predicted By A.S. Official

A "strong possibility of better wheat prices" has been seen by George B. Milnor, president and general manager of the Grain Stabilization Corporation. In a statement Milnor said:

"While in Europe I visited France, Italy, Germany, Belgium and England, and met with foreign representatives from other countries. Europe will receive rather heavy imports of wheat from the east and the harvesting of their new crop. Russia has practically completed the shipment of her wheat surplus from the last crop and the supplies from that source will be negligible until after harvest; therefore, Europe must look principally to Canada, the United States and Argentina for their supplies."

Empire Reforestation

B. C. Douglas Fir Now Grown Extensively In England

During the eleven years ending in September, 1930, the Forestry Commissioners of Great Britain planted a total of 32,350,000 Douglas fir trees on various sites in England, Wales and Scotland. All these trees were raised from seed furnished by the Forest Service, Department of the Interior, through their seed-extraction plant at New Weston forest, British Columbia. A considerable quantity of seed of other western species was furnished to the Commissioners from the same source. The New Zealand Government also took a large quantity of tree seed.

Russia announces the successful production of rubber from a plant named "touwanga."

Great Britain And United States Unite In Opposing Abolition Of The Larger Naval Vessels

Rainy Lake Map Sheet

Lake Country East Of Winnipeg Is A Paradise For Canotists

Very informative and interesting is the Rainy Lake Map Sheet of the National Geographic Society, recently published by the Topographical Survey, Department of the Interior, Ottawa.

The map covers the country along the international boundary from Quebec, Ontario Provincial Park on the east to within thirty-three miles of the town of Rainy River on the west. In addition to agricultural, mineral, forest and water power resources contained in the area, it is known as a great hunting and fishing region. The Port Arthur, Rainy River and Winnipeg lines of the Canadian National Railways run through the district from east to west, picking its way through the maze of lakes and rivers, which were the means of transportation from the time of the opening up of Western Canada until the railway came, about the beginning of the present century. The lakes and bays in country are a paradise for the canoeist, the fisherman, and the hunter, and the waterways are so intricate that the voyagers and trappers of the fur companies from the time of La Verendrye onward were always searching for shorter routes for the carriage of their furs and trade goods.

The chief centre of population is Port Francis, named after Lady Francis, the wife of Sir George B. Simpson, one of the famous governors of the Hudson's Bay Company. Port Francis is situated on Rainy River a few miles below the point where it emerges from Rainy Lake. Near it are shown the water powers which its name is associated. On the south side of the river in United States is the town of International Falls. The agricultural areas are chiefly in the western portion, extending from Port Francis to the township indicated on the extreme western edge of the map.

The railways and highways in United States which bring travellers and tourists into this part of Canada are also shown. The map which is more complete in all topographic detail of this district than any previously issued, may be had at a nominal price upon application to the Director of the Topographical Survey, Department of the Interior, Ottawa.

Canada's Dairy Industry

Is In Critical Condition Opinion Of Canadian Experts Held In Ottawa

The dairy industry throughout Canada is in a critical condition. That was the conclusion reached at a conference held in Ottawa on April 11 and 12. Delegates were present from most of the provinces and the gathering was said to be thoroughly representative of the whole industry. It was declared unanimously that the situation has been brought about first, by failure to keep abreast of the world in methods of milk production, and secondly, by world-wide competition and prevailing economic conditions. The remedy for the one lies to a large extent in our own hands but the cure for the second is not so easily cast.

One of the remedies suggested was to pay a bonus upon all butter exported from Canada through a levy upon the production of butter in Canada. This policy has been followed with success by Australia and South Africa and it was strongly urged by the delegates from Western Canada and some of those from the east. The conference was unable to reach a unanimous decision on the proposal.

It was called at the request of Hon. Robert Weir, Minister of Agriculture, and Hon. H. H. Stevens, Minister of Trade and Commerce. Among the recommendations made was the following: "That your Government announce that an emergency has arisen in the dairy industry of Canada and take steps to launch at the earliest possible moment, a nation-wide campaign to increase the efficiency of the dairy industry, through an educational campaign designed to lay the facts of the situation before all interested in the industry."

Canada has for years had nine departments of agriculture in as many different provinces, in addition to numerous agricultural colleges and courses. It seems strange if the united efforts have produced as little effect upon the dairy industry as the conference at Ottawa has indicated.

Another thing that doesn't turn out as you wish is the auto hand, out of you.

Great Britain and the United States fought for their battleships at the Arms Conference at Geneva, forming a defensive alliance against an organized offensive of the smaller powers who wish to classify all ships over 10,000 tons as aggressive.

The small powers would abolish battleships or internationalize them within the League.

The United States and Britain received moderate support from Japan and likewise encouragement from France.

Senator Claude A. Swanson, of Virginia, announced at the meeting of the naval commission that the United States unequivocally opposed classifying battleships as offensive weapons. They are the backbone of the United States defense system, he said, and "a threat to no nation," since we covet no one's territory. He stressed the United States obligation to keep the Panama Canal open in peace and war and to defend it far Eastern possessions.

Speaking and gesturing in a senatorial manner, he continued:

"If we had completed our naval programme after the war, it is conceded we would have been supreme on the seas, but we agreed to be a threat to no nation. . . . the battleship is cheap, and has gone as far as its defensive purposes than to build fortifications along our coasts. Battleships have saved us a great deal of money for defensive purposes."

"We realize that naval power plus military power would menace every nation. . . . We only wish the people who have armies had gone as far as the naval people in reducing and limiting."

He declared cruisers to be of greater offensive use than battleships, particularly in preying on commerce and blockade.

Vice-Admiral A. D. P. P. Pound, of Great Britain, supported Swanson, declaring that general naval superiority, not capital ships, enables attacks on trade. Similarly, he continued, it is not fair to claim that battleships are destined for carrying out

"The capital ships of the world can now almost be numbered on the fingers of the two hands," he said. "They are more precious than rubies to the countries possessing them. No nation is going to risk them by pitching them against coastal fortifications."

Baron Von Reichenbach, of Germany, announced that Germany is willing to sacrifice her powerful and efficient "pocket" battleships on the altar of disarmament if others scrap battleships over 10,000 tons. Defending the "pocket" ships as defensive rather than offensive, he said:

"Germany's 10,000-ton battleships cost one-half as much as your battleships. You would be saving money if you adopted Germany's restricted tonnage methods of construction." "They are more precious than rubies," he stated, "because the charges made by Charles Dumont, of France, that the 'pocket' ships are offensive. He referred to the charges as a myth and introduced a technical demonstration of why the light ships were built quickly and heavily armed to defend Germany against the superior tonnage of foreign attackers."

He also criticized the United States fleet of the defensive nature of battleships, saying:

"What about the blockade of our ports, which was the decisive turning point of the World War?"

Cottage Has History
The "Lone Eagle," a small cottage owned by "Jimmy" Ray Burroughs at Hopkinton, New Hampshire, was built in large from the crates in which Colonel Charles A. Lindbergh's New York-to-Paris plane "Spirit of St. Louis" was shipped back to America.

Spanish cedar is grown chiefly to make cigar boxes.

"Why is your husband in such a rage?"
"They are praying marriage over the wireless!"—Dorfbauer, Berlin.

"But the host sails on the 13th of the month. Aren't you superstitious?"

"A little, but it's my wife who's sailing!"—Buen Huidro, Madrid.

TABLE REPORT ON CLOSING OF MANITOBA BANK

Winnipeg, Man.—A majority report of a special legislative committee tabled in the Manitoba House, said it would not have been necessary to close the Manitoba Provincial Savings Office if the Dominion Government had given the necessary guarantees, sought by Premier John Bracken.

The committee was appointed to inquire into circumstances "surrounding the office's closing by the Manitoba Government in March. Accounts of the office were taken over by the chartered banks.

Two Conservative members of the legislature, one Manitoba member of parliament, and three prominent Winnipeg men are named in the report as persons who started the rumors, causing a run on the government-owned office which eventually led to its closing.

They are Ervick Willis, Conservative member of parliament for Souris; John T. Haig and W. F. Newton, Conservative members of the legislature; Valmore Schweitzer, provincial organizer for the Conservative party; Dr. L. B. Wilmet and Dr. R. C. Price.

The Dominion would not have assumed any greater responsibility in guaranteeing deposits in the Savings Office than it did when it guaranteed the banks, the report sets out.

Refusal of the Dominion to grant these guarantees at the request of the province, the report declares, "cannot be justified in view of the guarantee given later by it to the banks and in view of the assistance given to other provinces."

The committee found that the business of the Savings Office was normal up until about January 11, 1935, when "unusual withdrawals of deposits commenced as a result of rumors." The run on the office was attributed by the committee directly to "rumors" that the office was unsound.

"They were in part," states the report, "the result of a deliberate and organized campaign."

The report was signed by the five government members of the committee appointed to inquire into the closing of the office, and S. J. Farmer, Laborite; Sanford Evans and J. O. McLennan, Conservative members, are expected to table a minority report.

Government Control Of Radium Considered

Information Given To Senate By Hon. Arthur Meighen

Ottawa, Ont.—Government control of radium production and conservation is having the "immediate and earnest" consideration of the government, Right Hon. Arthur Meighen, leader of the Senate, told that body.

The danger of a mining rush into the Great Bear Lake district of Canada's North West Territories, a thousand miles north of civilization, with the possibility of winter over-taking the men before they could escape, was feared by Senator Meighen. He urged the government to take such measures as will ensure no man going in who had not made proper provision for getting out.

Receive Flower Seeds

Toronto, Ont.—Flowers will bloom again in drought-stricken western Canada. A letter received by W. L. Aiken, Toronto, originator of the idea of dispatching flower seeds to western Canadians, expressed gratitude for the thoughtfulness of Ontario people. The letter was signed by C. B. Daniel, general manager of the Saskatchewan Relief Commission.

U.S. TAKES ALL CHECKS

Washington, D.C.—The rate of four cents on the sale of each \$100 bond was voted by the United States senate finance committee. The rate was the same as set for stock sales. The committee made all checks subject to the two cents tax, eliminating the 50 exemption allowed in its original proposal.

Great Britain To Reply

London, England.—Sir John Simon, Secretary for Foreign Affairs, told parliament that Great Britain expects to reply soon to the United States note proposing that debt payments suspended under the Hoover moratorium should be made in annual installments.

This concrete roof of large span can now be built with no intermediate supports, as a result of a new system of reinforced concrete construction.

W. N. 11, 1935

Adventurous Cruise

Small Vessel To Sail For Southern Seas In Search of Treasure

Toronto, Ont.—Bound south, the 60-foot auxiliary schooner "Wanders" will dip her flag in farewell to Lauenburg, N.S., in a few weeks on an adventurous cruise. Skipped by Lieut.-Commander Geoffrey Cough, of Toronto, the little vessel will follow a long itinerary. The only woman in the crew is Mrs. Cough, while Frank Everett, her brother, and Murdoch Kirby are the other principals in what is hoped to be a search for treasure. The party is to search for treasure in the Hakkado—the mysterious race said to inhabit Easter Island. Everywhere they visit, photographs are to be taken, and when the ultimate destination, Singapore, is reached, the party hopes to have one of the most valuable photographic collections of South Sea information in existence.

Assistance Will Be Given

Dominion To Stand Behind Provinces In Relief Matters

Ottawa, Ont.—The Dominion will contribute and where necessary help also to the provinces in the matter of direct relief; a percentage of relief costs yet to be determined will be paid to the provinces; and a province is unable at the moment to pay its share, the Dominion exchequer will loan the amount taking in security treasury bills.

This position of the Dominion Government was made clear in the House of Commons by Hon. W. A. Gordon, Minister of Labor, during consideration of the unemployment relief resolution. The minister was answering a question by Hon. W. A. Gordon, Minister of Labor, during consideration of the unemployment relief resolution. The minister was answering a question by Hon. W. A. Gordon, Minister of Labor, during consideration of the unemployment relief resolution.

Amazing Spirit Manifested

No Evidence Of Complaining On Part Of Business Men and Farmers

Vancouver, B.C.—Impressed with the "amazing spirit of optimism and hope" on the Canadian prairie, Hon. H. H. Stevens, Minister of Trade and Commerce, reached Vancouver for convocation of the University of British Columbia.

"There is no evidence of whining or complaining on the part of business men and farmers in the prairie provinces," he said. "Crop prospects are good and when harvest comes there should be a wide demand for labor. It is noticeable that there is a return to the old horse power in replacing machine power on the land."

Dawson Ice Breaks Early

Woman Was Winner Of Annual Prize For Guessing Date

Dawson, Y.T.—The ice in Yukon River moved out in front of Dawson May 1 at 7:22 p.m., Y.T., thus deciding Dawson's annual ice sweepstake to which guesses this year were confined solely to Dawson City and the surrounding area.

Total pool was \$1,200, given as one prize and won by Mrs. Negan of Gold Bottom Creek, with a guess of May 2, 7:37 p.m.

This is one of the earliest break-ups of the ice at Dawson in the memory of the white men.

Editor Arrested

Finnish Newspaper Man Of Sulbry Whisked Away Under Police Guard

Sulbry, Ont.—Arvo Vaara, editor of the Finnish daily "Vaapaa" and Martin Parker, translator, arrested in a Royal Canadian Mounted Police raid on the newspaper's offices, were loaded into an automobile and rushed out of town in a southerly direction. Five plain clothes detectives guarded them.

Mounted police refused to divulge the destination of the car bearing their prisoners and declined to discuss the case.

Naval Appointments

Ottawa, Ont.—The appointment of Commander V. C. Broder as commander-in-charge at Esquimaut, B.C., effective from May 27, was announced by the Department of National Defence. It was also announced that Commander G. C. Jones would take command of H.M.C.S. Skeena, and the western division on May 25.

Death Toll Heavy

John, Philippine Islands.—Balated reports brought the number of persons killed on the Island of Solo, from the recent typhoon to at least 65. It is feared that the others are dead. The authorities estimated that 65,000 were rendered homeless.

Indians Getting Franchise

Many Being Recognized As Entitled To Full Citizenship

Ottawa, Ont.—The enfranchisement of Indians is proceeding with individual receiving full citizenship by order-in-council as circumstances warrant. Hon. T. G. Murphy, superintendent-general of Indian Affairs, told Dr. Peter McGibbon (Cons., Muskoka), in the House of Commons, Dr. McGibbon said in his constituency were two bands of Indians, to whose intelligence and industry he paid high tribute. They wanted full citizenship, and Dr. McGibbon felt they ought to have it.

Churchill Insurance Rates

Effort To Be Made To Secure Lower Rates On Grain Shipments

Ottawa, Ont.—Every effort is being made to secure insurance rates that will encourage grain shippers to use the new terminal facilities at Churchill on Hudson Bay. Hon. C. H. Cahan, secretary of state, advised the House in answer to questions. The Imperial shipping board in England secured a reduction in the rate in 1931. Cahan said, and there were hopes of further reductions in the near future.

GRAIN SHIPMENTS REPORTED FOR RUSSIAN PORTS

Vancouver, B.C.—The Vancouver Sun publishes the following:

"Coming as the most significant development in the Vancouver grain season, confirmation was secured of the sale of 1,500,000 bushels of grain for shipment to Russia from this port.

"Five vessels have been chartered to carry it to Vladivostok. The 'Castlemore,' now loading here, is one. Names of the other four have not been disclosed.

"With Russia, three months ago regarded as the greatest menace to wheat export countries, now back in world markets as a buyer, Vancouver grain men believed possibly 10,000,000 bushels of wheat would move through Vancouver to Siberia in the next few months.

"The 40,000 tons of grain going out on these five ships to a consuming channel untrammelled of six weeks ago are generally understood to be supplies for Russian troops assembled in Siberia since the Manchurian border trouble with Japan.

"Not a great deal is known about the shipments since most of the wheat was negotiated in London.

"The London office of Messrs. Moffatt and Company arranged four of the cargoes. It is understood.

"Two of the ships to carry the wheat are the 'Vladivostok' and the other three are stated to have been secured through the Canadian Transport Company of Vancouver.

"While the requirement of the Russian military forces in Siberia are considered the chief cause of the Canadian orders, the underlying reason for the shipments is believed to be new famine conditions in the Volga section of Russia.

BREAKS RECORD

C. W. A. Scott, British flier, who has just set a new record for the flight from England to Australia

Scott's time for the 13,187 miles was eight days, thirteen hours and 53 minutes.

His time for the 13,187 miles was eight days, thirteen hours and 53 minutes.

His time for the 13,187 miles was eight days, thirteen hours and 53 minutes.

Defendants Are Freed

One Hour Sentence Is Imposed In Connection With Massive Conviction

Hamilton, Ontario—Governor Lawrence M. Judd freed the four defendants of the famous Massey murder trial one hour after they had been sentenced to 10 years at hard labor at Guelph prison.

Sentence was passed in a surprise move on Lieut. Thomas H. Massey, his mother-in-law, Mrs. Granville Fortescue, and the two women, E. J. Lord and Albert O. Jones.

Their hour of confinement was in the nominal custody of the sheriff at Island Palace, across the street from the judiciary building where for several weeks they had been awaiting trial.

Sentence was passed in a surprise move on Lieut. Thomas H. Massey, his mother-in-law, Mrs. Granville Fortescue, and the two women, E. J. Lord and Albert O. Jones.

Their hour of confinement was in the nominal custody of the sheriff at Island Palace, across the street from the judiciary building where for several weeks they had been awaiting trial.

Protests Against Use Of American Ports

Maritime Senator Thinks Route For Canadian Grain Should Be Changed

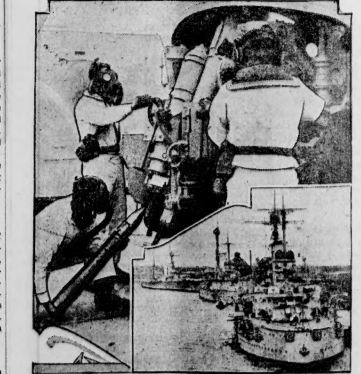

Toronto, Ont.—Senator W. H. Dennis, of Halifax, told an interviewer it was "difficult for the people of the Maritime to see the justification for shipment of millions of bushels of Canadian grain through United States Atlantic ports."

He said United States railwaymen and waterfront workers were being provided employment handling Canadian grain while the "great Atlantic ports of Halifax and Saint John would be as regards Canadian traffic."

Had Money In Bank

Hamilton, Ont.—Buried as a pauper recently, Obadiah Markle had \$14,000 in the bank. Markle died in a rooming house, and his landlady recorded a bank book bearing a record of deposits. Investigation proved the money was actually there.

Germany's Rebuilt Navy

Here are two of the first pictures to be made of the new German navy built to replace the Imperial Navy which was scuttled at Scapa Flow, Scotland, after surrender to the British. Sailors of the cruiser Koenigsberg are shown at anti-aircraft gunnery practice, during recent manoeuvres in the Baltic Sea. Note that the men are equipped with the latest type gas mask. Inset shows some of the ships of the fleet in line.

Prepare For Conference

Alberta Arranging For Suggestions To Be Forwarded To Imperial Party

Edmonton, Alberta.—First steps toward preparing an Alberta statement for submission to the Imperial Conference in Ottawa next July are now being taken. It was announced by Premier Brownlee. As a preliminary step letters are being sent to organizations representing the economic interests in the province, in which they are invited to forward any suggestions they may have to offer.

It is expected that the Dominion Government will extend an invitation to the provinces to submit suggestions as to the position to be taken by Canadian interests at the conference.

The Alberta Government will also participate in a joint conference to which the Saskatchewan Government has invited its two neighboring provinces and which will be held about June 5. An exchange of views in preparation for the Ottawa conference will be the purpose of this interprovincial meeting, but Mr. Brownlee points out that it may not be desirable to make a joint representation, inasmuch as the interests and needs of this province are much more varied than those of the other two provinces.

Curtail Waste Of Gas

Steps Are Taken To Cut Down Gas Production In Turner Valley

Calgary, Alberta.—Turner Valley gas conservation board, formed by the government to curtail the waste of gas in Turner Valley gas field, announced that orders would be issued immediately requiring oil companies to reduce their gas production.

The board asked to lower production to 200,000,000 cubic feet daily in an effort to prolong the life of the gas field.

It is understood oil companies will be informed that they have 48 hours to reduce their gas yield to conform with the board's objective. It is expected gas production will be curtailed greatly and most of the waste gas flares at the Turner Valley Wells practically extinguished.

The board members have elected A. A. Carpenter chairman. Other members of the board are John McLeish of the Department of Mines, Ottawa, and Dr. R. C. Wallace, president of the University of Alberta.

BILL IS DRAFTED TO DEAL WITH UNEMPLOYMENT

Ontario Legislature To Consider Bill To Amend Unemployment Insurance Act

Toronto, Ont.—Representatives of Ontario independent telephone companies interviewed Premier Henry, to discuss a proposed amendment to the Dominion tax on long-distance telephone calls. The delegates argued that their companies were providing a public utility, and therefore were not legally under the Dominion Government tax law.

Premier Henry requested Hon. W. H. Price, Attorney-General, to submit a ruling in the case.

NUDE PARADERS GIVEN 3 YEAR TERMS IN JAIL

Nelson, B.C.—Sentences totalling 34 years were handed out by Magistrate John Cartmel to 84 Doukhobor men and 31 Doukhobor women, members of the Sons of Freedom sect, following their conviction in police court here of parading in the nude in public at Thrums. In each case a term of three years in the penitentiary was imposed, admitted their guilt. The 118 accused were heard and sentenced in 120 minutes. The men and women were arrested after battling the police for 40 minutes.

Fete Maloff, leader of the element, took his sentence with a smile after admitting appearing in the nude walked to his cell and with a smile said, "I thank you." There was little trouble with the men, but the women in some cases protested their sentences, declaring they had stripped but were praying or celebrating.

The convicted men will be sent to New Westminster penitentiary to serve their sentences, and the women to Kingston, Ont.

Hardy, Hon. R. H. Pooley, Attorney-General, who came here from Victoria to warn Doukhobors against further violations of the law in staged nude parades, was taken to jail to matron to the Sons of Freedom at Thrums, that they must obey the law or go to jail, when five or six women members of the sect, dressed in white, paraded defiantly before the attorney-general and his party. No arrests were made. Other women of the group demanded to be taken to jail to join their husbands, brothers and sisters. These were the only untoward incidents in the visit of Mr. Pooley to the district.

Passed Both Houses

Royal Assent Is Given To Number Of Bills

Ottawa, Ont.—Chief Justice Anglin, as Deputy to the Governor-General gave royal assent in the senate to a number of bills which had passed both houses. These bills include the following: To amend the patent act, to amend the petroleum and naphtha laws, to amend the act respecting the crown; to amend the opium and narcotic drugs act, 1929; to amend the Yukon gaming act, to amend respecting the Canadian Pacific Railway Company; to amend the destructive insect and pest act; to incorporate Lake of the Woods International Bridge Company.

How Many Supertwist
Cords in the Average
Goodyear Tire?

\$3000.00

In Cash Prizes
For Answering
This Question

Good at figuring? Get out your pencil and estimate the number of cords in the average Goodyear Tire. Some lucky person is going to get those thousand dollars. Why not have a crack at them yourself?

Anyone from a household where a car is owned may enter—except tire dealers, employees of rubber companies and the families of both. Six Good-year Tires of various sizes, types and ply-thick-nesses are on

display here. Estimate the number of cords in each of the six tires, find the total, and divide by six to strike an average. A cross-section of a tire, also on display will help you. Submit your estimate on the standard entry blank which is free. No other requirements. You don't have to buy anything.

Closing date—June 26, 1932. Address: "The Good-year Supertwist Cord Contest," New Toronto, Ontario 14, Ontario.

1st prize — \$1,000.00 cash
2nd prize — \$500.00 cash
3rd prize — \$200.00 cash
4th prize — \$100.00 cash
5 prizes, each \$50.00 cash
95 prizes, each \$10.00 cash
104 prizes totalling \$3,000.00

In Memoriam

In sacred remembrance of Frankie, beloved son of David and Elizabeth Scott, who died May 12th, 1920, aged 9 years 9 months.

Three years have passed since that sad day

God took one boy we loved away. Forget him not, we never will For in our hearts he liveth still.

Nothing can ever take away The love a heart holds dear.

Fond memories linger every day, Remembrance keeps him near.

We long so much for you dear son, No eyes may see us weep.

We shed our tears from broken hearts While others are asleep.

Beside his grave we often stand, Our hearts both crushed and sore

But in our gloom, the sweet words come, Not lost, but gone before.

Ever remembered by Father, Mother, Sisters and Brothers.

Local and General

BORN—On April 22nd, to Mr. and Mrs. B. Somerville, a daughter.

Mortimer James, aged 10, son of Mr. T. James, passed away Thursday morning. The funeral takes place in Lethbridge Saturday.

Richard Smith, 4 year old son of Mr. and Mrs. Lee Smith, formerly of Champlon, now of Peace River, was drowned in a well May 1st. Much sympathy goes out to the family from their friends here.

HOUSE TO RENT.—4 rooms, plastered, cellar and garden. Good water handy. Newly painted. \$7. Phone 44 or call at Chronicle Office.

BORN—To Mr. and Mrs. W. G. Laidlaw, Cardston, a son, on Wednesday May 11. Benjamin William.

A big dance will be held at Alston on Friday May 13. Don Stephenson and his "Rhythm Vendors" (The old Mystery Boys) will supply the music. This dance is being put on by the Alston girls softball team and a good time is assured. There will be a softball tournament preceding the dance.

The first baseball practice was held on Wednesday evening at the local diamond and showed a lot of good material for a team this season.

A softball tournament held at Alston was won by Champlon, a sweet revenge for the last tournament at Fireguard.

Another popular dance will be held in the Community Hall Friday, May 20. Len Davis and his Royal Arcadians, Southern Alberta's most popular orchestra, in all the latest hits, will supply the music. Admission 50¢ per person. Proceeds for Community Hall funds.

Mr. Lowden, representative for Tip Top Tailors, will be at McCullough's store on Monday May 10, with a full range of samples for men's suitings and spring overcoatings. This line is now out at a new price of \$24.50 and a wonderful opportunity to renew your wardrobe.

Some men never change their opinion because it's been in the family for generations.

Mr. J. Deporier of the Canadian Bank of Commerce Calgary has taken the position vacated by A. M. Watt.
